

## Shocker N-V bolt

Nox is proud to introduce the “N-V” Shocker Bolt version 1.5. This bolt is packed with new features. Team Naughty Dogs exclusively uses these bolts in their guns. Bolts are CNC machined to the tightest tolerances. Below are some of the bolt features:

1. Bolt is Made of Ertalyte PET-P
  - a. Super Light Material
  - b. Stronger and more scratch resistant than standard Delrin
2. Pat. Pending Soft Elastomer Face.
  - a. Bolt Face assists in sealing the ball on the face of the bolt. This in turn will give better shot to shot consistency.
  - b. Soft ring reduces ball breakage
  - c. Radius bolt edge reduces 2<sup>nd</sup> ball in stack clipping
3. Improved efficiency (1500+ shots from 68/45) Avg. among 10 shockers
4. Faster Cycle times due to extremely light weight.
5. Bolt will work with any Can that uses the STOCK H.E. bolt

Price: \$39.99

\*\*Bolt will work with any shocker can the stock HE works with.

Disclaimer: Bolt will need to be kept clean and lubed. If used in really dirty environment (i.e. Sand) it will scratch and leak. NOX is not responsible for MISUSE.

Warranty: Bolt is only warranted for manufactured defects.
